Moriah Iverson ’06
RISING STAR

*Given to an alumnae who has achieved recognized success early in her profession/career.*

“It is an honor to be recognized for my work so early in my career and is especially significant as it comes from an institution that knows me and my background very well.”

Moriah Iverson ’06 is the program manager of community engagement and research at The Medical College of Wisconsin, Department of Physical Medicine and Rehabilitation, and sits on the Research Administration Committee.

She conducts research in neuroscience, developmental biology and public health and received a pilot grant from the Clinical and Translational Science Institute to develop a service to help people with disabilities participate in adaptive sports and active recreation. She also established a community advisory board that guides the department’s research.
